

**Whitnash Primary School**  
'Learning, growing and succeeding together'

## **DATA SHARING WITH THIRD PARTIES**

Dear Parent/Carer

In order to deliver the curriculum to our pupils' we make use of the following external web-based learning resources. As such we have a lawful reason for sharing your child's personal information.

In this form we have set out:

- (a) Details of the external resources that we currently use, and
- (b) The personal information that we share with them

### **Accelerated Reader by Renaissance Learning**

#### **Purpose of Resource:**

The Accelerated Reader Programme has been designed to engage children in reading through high quality books, online quizzes and immediate feedback on performance.

At the start of each half term, children complete a test which gives them a 'book band'. Children can choose from a range of books within their band to fit their interest age and reading level. They also receive reading targets.

Having finished a book, individuals complete a comprehension quiz based on the story or information they have read. Quizzes are either 5 or 10 questions long. As soon as the quiz is complete, the system provides immediate feedback on quiz scores and progress towards their target.

This resource develops children's comprehension skills, reading stamina and improves their reading ages.

**Personal Information Shared:** pupil name, reading age, date of birth, year group

### **Fit4Schools - Fitness Testing**

#### **Purpose of Resource:**

Fit4Schools Programme is a performance measured activity programme is conducted up to four times per year in school.

Each year group has their own activity programme which focuses on improving children's fundamental movements and fitness. Each child has a secure, personal login to track their individual progress and downloadable resources with activities to practice relative to their score.

The programme identifies high scorers, most improved and those requiring intervention support. This allows school to support children's physical development.

The Fit4schools interactive portal enables class teachers to access compatible data and reports in order to provide clear definable evidence of sporting and wellbeing enhancement. Reports are generated following every session allowing teachers to monitor improvements of the individual child, while also comparing class scores with the fit4schools national average.

This programme is proven to have a significant impact in the overall levels of health, fitness and wellbeing of children in school. The programme increases the engagement of all pupils in physical activity and can lead to an average overall school improvement of 24.7%. The programme provides a tool for our schools to be able to monitor, track and assess every individual child's progress.

**Personal Information Shared:** pupil name, date of birth, year group, programme outcomes, gender.

### French Angels

**Purpose of Resource:** Language Angels is a planning and resource tool for teachers. Language Angels provides language teaching resources designed to allow primary school teachers, irrespective of their linguistic ability, to teach the foreign language. We focus on French at Whitnash.

The resource contains more than 26 teaching units (each designed to run for 6 weeks). All of our units are organised into easy to understand, clearly defined categories that enable teachers to pick the right unit for the level of ability of their class. This resource supports the teaching of languages at our school.

**Personal Information Shared:** pupil name, date of birth

### Exemplar Learning

**Purpose of Resource:** Exemplar programmes give students access to online learning materials provided by Exemplar maths, English and reading programmes. These resources can help support children with their maths, English and reading in school and at home.

**Personal Information Shared:** generic user codes, pupil name

### GoRead

**Purpose of Resource:** GoRead is an online reading diary which enables parents and teachers to update information about how the child is reading. It keeps an online record of all the books a child has read which is kept for the duration of the time the child is at the school.

Every time the children log onto GoRead to upload an entry they are awarded a gem as an incentive and reward. The gems are collected and they can be used to acquire Top-Trump-type cards. The resource develops home/school links and creates an enthusiasm for reading.

**Personal Information Shared:** pupil name, year group.

### Times Table Rock Stars

**Purpose of Resource:** Times Table Rock Stars helps children master their tables as an online tool to learn times tables and school can monitor progress.

**Personal Information Shared:** pupil name.

Full details of the learning resources, including details of where information is held, can be found in our Privacy Notice.
