Challenge # 33 - Family Tree

Creating a family tree can be about our children including the people (and pets!) that are important to them that they spend time with in their daily lives. At the current time many of us are not able to spend time with some of the people we are close to. Make a family tree, photograph it and send it to them.

You could always add additional information such as names and birthdays and place names. Discussing stories about the people in your family tree can help children learn about their own history.

For older children you can help them to delve deeper into their family history, they could complete phone/online interviews with family members.

When you have completed your challenge please login to the Survey Monkey to let us know how you got on. You can download photos too.
